

XMind

Channel Partner Program

XMind is the flagship product of XMind Ltd. – The award-winning brainstorming and mind-mapping software is rated as one of the coolest, smartest and most efficient solutions in the market, serving more than a million users around the world. Packed full of excellent features the solution opens brand-new mind-mapping possibilities.

How to Obtain New Customers and Increase Your Turnover with our Partner Program

The XMind Channel Partner Program supports you in selling the products. You will also receive free advertising materials, leads and many practical tools that help you market XMind faster and more efficiently.

Why Compuwave?

We are an exclusive distribution partner and have assumed the task to market XMind throughout Europe. The XMind Channel Partner Program is intended to help support our customers with any enquiries and generate new partners. It is our way to recompense and to promote you.

Your Benefits	Unregistered Trader	Platinum Partner
