

Deploy Microsoft Teams and stay in control webinar

Before deploying Teams, there are a few things you need to understand:

- What is Microsoft Teams
- Microsoft Teams and Office 365
- Managing Microsoft Teams like a product
- Managing and governing Office 365 Groups at scale
- Office 365 Groups compliance

Product Demo

Attend a ShareGate Apricot product demo

- Uncover teams that are missing owners
- Detect inactive teams based on user activity
- Archive teams that are inactive or irrelevant
- See what's been shared externally
- Schedule automatic link reviews

Teams Administration 101: insights into building a foundation for effective remote work

In this on-demand session, ShareGate's Benjamin Niaulin offers a "crash course" style overview of the Microsoft Teams platform where he reviews best practices for Teams administration and onboarding, guides you through solving some common issues you'll see while scaling your implementation, and explores how ShareGate Apricot can help you keep your Teams on track.

Win as a Team! eBook

Learn Microsoft Teams best practices from the pros! This insightful guide teaches how you can empower users to use Teams effectively and leverage it to its full potential.

Succeed at every step: Simplify adoption in Microsoft 365 with your ShareGate subscription
