REPAIRS CORRUPT PST FILE

Repair oversized PST file to restore all mailbox items such as emails, attachments, contacts, calendar items, journals, notes, etc. into a new PST file.

RECOVERS DELETED EMAILS

Recovers accidentally deleted emails from 'Inbox' or emptied from 'Deleted Items' folder in Outlook. This is helpful in case of data loss due to drive or media formatting.

SELECTIVE RECOVERY IN MULTIPLE FORMATS

Allows to find, view, and save specific messages in the repaired PST file. The selected messages can be saved in EML, MSG, RTF, HTML, PDF, MBOX etc.

RECOVERS FROM ENCRYPTED PST FILES

Recovers emails from encrypted and password-protected PST file. The software does not require the password to decrypt PST file for repair.

PREVIEW MAILBOX BEFORE SAVING

Preview recoverable items including emails, calendars, contacts, tasks, journals, and notes etc. before saving them. You can also view the deleted emails marked in 'Red' color.

EXPORTS REPAIRED PST TO OFFICE 365®

The software exports the repaired PST file directly to Office 365®. Just enter the login credentials and the software automatically export the repaired PST to Office 365®.

3 STEP REPAIR PROCESS
