### RESOLVES ALL EXCHANGE ISSUES

Exchange database corruption issues affect business operations. Our all-purpose Exchange toolkit fixes a variety of issues by performing repair and extraction of mailboxes from corrupt EDBs and BKF files, conversion of OST to PST and recovery of server password.

### EXPORTS MAILBOXES TO PST

Upgrading or migrating to Hybrid Exchange requires exceptional effort. Stellar Toolkit for Exchange assures hassle-free conversion of the entire Exchange database or a handful of mailboxes into PST format. Also, it directly exports mailbox data to Live Exchange or Office 365.

### CONVERTS OST TO PST

Issues like the inability to access OST on a different machine and OST file corruption hinder business communication. Stellar OST to PST Converter converts and extracts all mailbox data into Outlook importable PST file.

### EXTRACTS DATA FROM BKF FILES

Inability to restore the database from Exchange Backup File affects business continuity. Stellar Mailbox Extractor for Exchange Backup resolves such issues by extracting all data from the BKF file to restore normal server operations.

### RECOVERS LOST SERVER PASSWORD

Exchange passwords are critical and may create issues. Stellar Password Recovery for Microsoft Exchange allows resetting password of servers serving as Domain Controller. Also allows resetting password for Windows server 2012, 2008 and earlier.

### RESTORES DELETED MAILBOXES

Recovering important information from deleted, old or unused mailboxes is easy with the toolkit. It effectively retrieves deleted mailboxes and makes all the mailbox contents accessible with the help of EDB to PST converter module.

## MVP SPEAKS

“

Nuno Mota

MVP, Microsoft Community Contributor

Stellar Exchange Toolkit is easy to use Graphical User Interface and this is every Exchange admins must to have tool, Capable of handling almost everything related to exchange database corruption. Best part is that tools included in Stellar Exchange Toolkit do what they claim to do and in very optimum way. One great feature which I came across is you can easily export a folder or a full mailbox to a live Exchange server and Office 365. it is great tool!!
