KEY FEATURES

RECOVERS DATA FROM CORRUPT PST

Stellar Repair for Outlook Technician software in the Toolkit can parse severely corrupt PST file of any size & reconstruct mailbox data with 100% precision. It repairs password-protected PST file & recovers mailbox data in PST, MSG, EML, RTF, HTML or PDF formats. Also allows direct export to Office 365.

SPLITS LARGE PST TO HELP MANAGEABILITY

Stellar Splitter for Outlook utility in the Toolkit splits large Outlook PST file thus reducing its chances of corruption and improving long-term manageability of emails. It can split PST file by Size, Date, Email ID, and Folders, while maintaining the original structure and organization of emails.

MERGES MAILBOXES WITH ZERO DATA LOSS

Stellar Merge Mailbox for Outlook tool in the software suite collates mailbox data from multiple PST files and merges it in a single PST file with 100% data integrity. The software merges items across all mailboxes and eliminates duplicate and junk data. It also merges password-protected PST files.

RECOVERS LOST OR DELETED ITEMS

Stellar Undelete Email for Outlook tool in the software suite can recover lost or deleted emails, attachments, contacts, notes, journals, tasks, & more. It also recovers deleted items from encrypted & password-protected PST file & further splits large PST to improvement manageability & performance.

EXTRACTS DATA FROM INACCESSIBLE OST

Stellar Converter for OST Technician software converts inaccessible OST into PST, thus extracting mailbox data in an accessible & portable format. It can convert OST file of any size & directly export the data to Office 365 or Live Exchange. Also extracts mailbox data as MSG, EML, RTF, HTML or PDF.

COMPACTS PST FOR OPTIMAL PERFORMANCE

Stellar Compactor for Outlook software compacts PST file to ensure optimal performance of Outlook without lag or crash. It optimizes PST file size by compressing all attachments in a new folder and emptying 'Deleted Items' & 'Junk Items' folders. Also allows scheduling of compaction tasks.

DE-DUPLICATES EMAILS TO OPTIMIZE MAILBOX SIZE

Stellar Deduplicator for Outlook is a handy utility for removing duplicate emails and thus reducing Outlook mailbox size. It provides multiple options to initiate action on duplicate emails, which include - 'Delete', 'Mark as Expired', 'Copy to Folder', 'Move to Folder', 'Mark with the Flag', & 'Delete Permanently'.

RECOVERS OUTLOOK PASSWORD

Stellar Password Recovery for Outlook tool in the software bundle accurately recovers lost or forgotten passwords for all Microsoft Outlook versions. It provides six different sets of passwords as a master key & assures that users are never locked out of their Outlook profile.
