

Make your online meetings super simple

Blizz gathers people instantly in an enjoyable, powerful, secure, collaborative space.

NOW

Seamless collaboration – don't sweat online meeting setups or sign-ups. Start your first Blizz meeting instantly, and even new users will be able to spontaneously join your meetings within seconds.

EASY & FUN

Tedious virtual meetings are no more! Focus on the relationship, not the technology, and enjoy crystal-clear video and audio as well as a fun, intuitive user interface.

ROCK-SOLID RELIABILITY

Trust an industry leader with the proven technology to run more than 35 million online meetings each year. Rely on high security via end-to-end encryption, two-factor authentication, and trusted devices.

It is easy: One. Two. Blizz go!

Key features

Secure

- RSA 2048 public/private key exchange AES 256 bit end-to-end session encryption
- Trusted device verification when logging in
- Optional two factor authentication

Share your screen

- Present from your Windows PC or Mac, and collaborate with others on any PC, Mac, Android or iOS mobile device.
- Show people what's on your screen or share only selected applications.

Mix VoIP and phone

- Attendees can call from their favorite audio channel, be it high quality VoIP,
- Or free local dial-in phone numbers.

Instant

- Start and join meetings without needing to sign up for an account
- Effortlessly bring people together with a single click from a chat or through your contacts list
- Receive your own unique personal meeting ID
- Simply send it to colleagues and friends, and they'll be able to join your meetings

Connected

- Leverage your existing address book to add contacts
- Integrate with Outlook for single click meetings
- Stay connected before and after meetings via instant messaging
- Send files to participants in the meeting

Strong

- Built on proven TeamViewer technology with over 400 million sessions per month
- Leverages the high performance architecture and backend from TeamViewer

Seamless

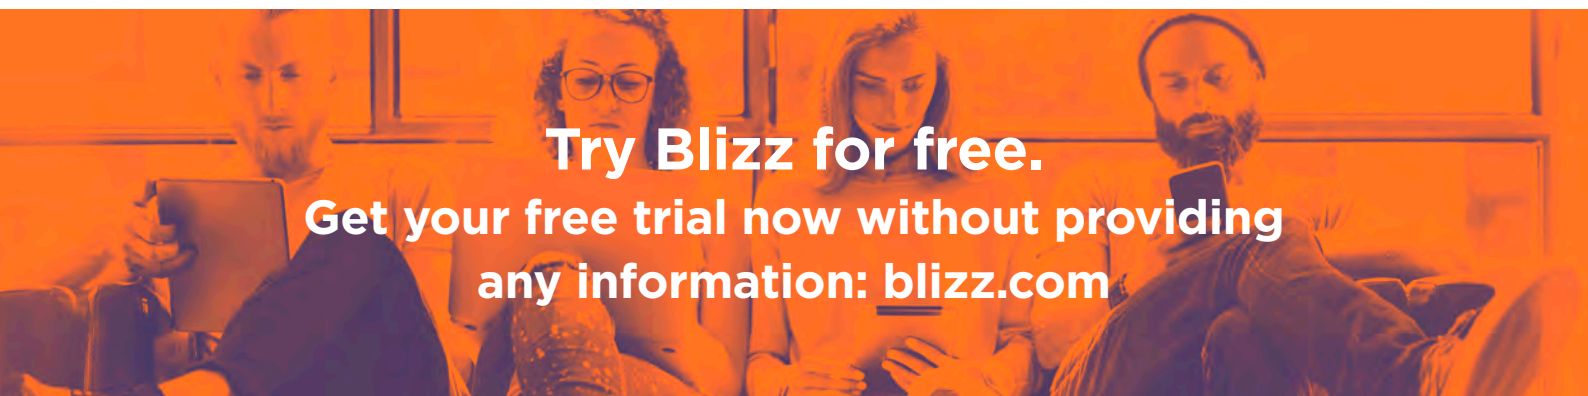

- Blizz works behind firewalls, automatically detects proxy configurations, so you can always connect
- Set up user rights for speaking, chatting and file sharing
- Use a whiteboard during meetings to mark up your screen

Meet face to face

- High-quality video conferencing lets you see and talk to multiple participants simultaneously in a single call
