

## Anywhere Videoconferencing with Everywhere Security

Collaborate with your teams through secure videoconferencing and VoIP calls, instant chat, screen sharing, and more across devices and platforms – anywhere you meet.

### TeamViewer Meeting

Where security meets team collaboration – for everywhere meetings, wherever you're working.

TeamViewer Meeting installs on your desktop or mobile phone for quick access to all your TeamViewer contacts, enabling face-to-face HD VoIP videoconferences and audio calling, instant chat messaging with your coworkers or your entire team, scheduled group meetings (up to 300 people), desktop screen sharing, and session recording – all the essential meeting tools to collaborate securely with your teams and clients, from anywhere, anytime.

#### Work Remotely, Collaborate Closely

Host and join meetings on any device for productive collaboration, anywhere.

Staying connected and collaborating closely with your teams while working remotely is easy with TeamViewer Meeting. Keep everyone on the same page no matter where they're working with on-the-fly meetings or scheduled calls for team updates. With face-to-face videoconferences, easy screen sharing, and ongoing text chats, TeamViewer Meeting helps you beat deadlines and polish projects together, as though were you in the same room.

#### Keep Confidential Meetings, Confidential

Protect the privacy of your meetings with end-to-end encryption and industry-grade security features.\*

Unlike other online meeting tools, TeamViewer Meeting provides a GDPR and HIPAA compliant platform with optional two-factor authentication and 256-bit end-to-end encrypted videoconference calls, designed to protect sensitive, highly confidential information. Lock meetings and add meeting passwords to keep uninvited guests out of private discussions.

\*Excludes meetings with phone dial-in attendees.

#### Simplify Meetings for Education and Training

Teach remote classes or provide onboarding and ongoing training with interactive videoconferencing.

For distance learning, remote onboarding, and ongoing virtual training, TeamViewer Meeting offers a secure, simplified videoconferencing platform with session recording for future reference. Teach lessons and training classes from anywhere with easy-to-join meetings across Windows, MacOS, Android, and iOS devices.

### Solution Highlights

- **1-Click Instant Meetings**  
Focus on your meetings, not figuring out how to start them with 1-click instant meetings.
- **Cross-Platform Collaboration**  
Collaborate anywhere with your teams using your favorite computer, tablet, or mobile phone across Windows, Mac, Android, and iOS.
- **Integrated with TeamViewer**  
TeamViewer Meeting is now seamlessly integrated with TeamViewer, empowering teams to work remotely and collaborate closely from anywhere, anytime.
- **Easy VoIP Calls**  
Reach your contacts anywhere in the world on their desktop or mobile app with easy VoIP calls.
- **Host Huge Huddles**  
Host all-hands meetings with up to 300 people to share updates and big announcements.

### Key Benefits

#### Competitive Pricing

We guarantee the lowest price on market and will match any comparable offer.\*

\*Terms and conditions apply. Contact us for details.

#### No Training Required

Focus on your meetings, not figuring out how to start or join them with zero-training online meeting and collaboration tools.

#### Everywhere Security

Keep your meetings private with RSA 4096 public/private key exchange and AES 256-bit session encryption, plus security features like meeting passwords and meeting lock – no VPN required.

## Key Features

### HD Videoconferencing

See your high-def camera in action with TeamViewer Meeting video calls that'll take your online meetings to visual perfection. Collaborate on video calls with up to 10 people in the participant panel or connect face-to-face in one-on-one calls.

### Instant Chat

Collaborate quickly with your teams, clients, and friends with end-to-end encrypted chat messaging across all your devices.

### Meeting Recording

For added security, meetings can only be recorded with attendee consent. Use session recordings for future reference, compliance, onboarding, or training purposes with file playback only on TeamViewer Meeting.

### Instant Meetings

Get straight to your meeting, straight from your TeamViewer contact list. Skip sending email meeting requests, launch instant screen sharing sessions with your contacts, or join audio or videoconferences instantly with one click.

### 4K Multi-Monitor Support

From reviewing graphics, to sharing creative concepts or collaborating on intricate visuals, never miss a project detail, with flexible options to share multiple monitors – all in stunning 4K resolution.
